I OPPOSE THE DRAFT M.O.U. being proposed by the FDA. In particular, I OBJECT to the definition of "inordinate amount" which restricts the availability and the right to obtain medically necessary compounded medications by limiting the number of prescriptions that can be shipped across state lines from specialized compounding pharmacies.

COMMENTS: I rely on compounded prescriptions to relieve symptoms that were previously debilitating and <sup>they</sup> make it possible now to live a normal life. There are very few pharmacies compounding natural hormones that my insurance will cover, and I urge you not to restrict their ability to provide prescribed medications and not to restrict my right to choose how I get the medications I need.
